

INTRODUCING Comfort *☆* Craft[®] Diamond

DIAMOND PLATE ANTI-FATIGUE MATS

THE PERFECT MAT FOR THE HOME WORKSHOP!

We continue to improve our product lines, through innovation and dedicating our time to researching new ways to help reduce or eliminate problems related to poor circulation, musculoskeletal troubles and prolonged standing.

We are proud to offer you the results of our efforts at providing you with the best, and most comfortable diamond-plate mat in the business and setting a new standard for the industry.

Comfort*Craft Diamond Plate raises the bar considerably and offers an American made 100% recyclable, industrial grade polyurethane diamond plate anti-fatigue mat with durability that confirms it's recognition as the best environmental solution available in the market place.

The Comfort*Craft Diamond Plate is a unique product that incorporates an integral 1/8" skin envelope process that totally encapsulates the 3/4" thick mat and is chemical and abrasion resistance with guaranteed lay-flat beveled edges.

The unique properties of Polyurethane sponge provides optimal balance in-between compression and resistance while providing the necessary support for stability. We are sure you will agree, Comfort*Craft Diamond is the most comfortable mat you have ever experienced.

Comfort*Craft Diamond Plate mats are black with safety yellow edges, 3/4" thick and available in individual mat sizes 2'X3' and 3'X5'.
